

TRANSFERMANIA®

Dear Customer:

Thank you for your interest in transfer papers, stock products, equipment, accesories, supplies and services from **TRANSFERMANIA®**

This is a new world, don't you think?

Personalized gifts that not so long ago could only be produced by a complicated process, highly technical and with very expensive equipment, now can be created in a simple and cheap way.

You probably have the capability of making one or more attractive personalized products at this moment, but perhaps you are forgetting an important and cheap piece, whether it's equipment or software, to fully integrate your business. For example, if you own an inkjet printer you can produce transfers for t shirts, but you also need an industrial iron to finish the process.

Call us to aquire simple accesories and equipment that will let you produce:

Photo T-Shirts
Photo Mouse Pads
Photo Mugs
Photo Llaveros
Regalos Personalizados
... and much, much more.

If you are a small entrepreneur or house wife we ask you to let **TRANSFERMANIA®** be at your orders so we can teach you how to make money and have fn at the same time.

Your Friends
